This is a true statement signed under the penalties of perjury.

Applicant signature: \_\_\_\_\_ Date: \_\_\_\_\_

## PRIVATE INGROUND POOL-CONDITIONS

### 1. Private Pool – Definition

Any pool intended to be used primarily by occupants of a one or two family dwelling. Any such pool more than twenty-four (24) inches deep or having a surface area greater than two hundred fifty (250) square feet (18-foot diameter) requires a building permit and wiring permit before installation, enlargement or alteration.

### 2. Permits

An application for a permit shall be accompanied by one (1) copy of a Plot Plan bearing the stamp of a registered surveyor (scale not less than 1"=20'), fully dimensioned, showing the pool location on the property, the relation of structures on the property, the location of all fences and the gate(s), and the abutters names. (See sample). Also, two (2) sets of structural plans bearing the stamp of a professional engineer shall be presented.

### 3. Pool Location

No side of any pool shall be closer than the zoning setback requirements, or closer than ten (10) feet to any building foundation or septic tank. Only Special Permit from the Zoning Board of Appeals shall permit variances from these requirements.

### 4. Safety Requirements

A fence will surround pools at least four (4) feet high but no higher than six (6) feet and no further than twenty-five (25) feet from the pool water. A three (3) foot side self-closing gate will be provided. Rail fences are not permitted. Pools shall comply with all applicable codes.

### 5. Approvals

A new Certified "As Built" Plot Plan showing the actual location of the pool **must be** filed with the Building Inspector before a final inspection is made. Rough grounding of the pool must be in place and approved by the Wiring Inspector prior to the backfilling and/or pouring of concrete. **All Permanent Fencing must be in place before the filling of the pool. No pool should be used until the Wiring Inspector and the Building Inspector have granted final approvals.**

#### Note:

1. All applications submitted must be accompanied by a plan for fencing of pool showing location of fence, type of closures and latch hardware.
2. All permanent fencing must be in place before pool is filled with water.
3. A final electrical and building inspection is mandatory before pool can be used.

I have read and agree to abide by the conditions:
